# The Resurrection of Joseph Warren

**[00:00]** Bunker Hill: one of America's most patriotic landmarks. So why did a Christian nation choose an Egyptian obelisk to honor it? And who is the man most closely identified with this hill? Major General Dr. Joseph Warren, Harvard graduate. He died a war hero, but trained doing medical research. He was just thirty-four **[00:30]** years old, and his wife had died two years earlier.

Elizabeth. Elizabeth Warren. Joseph Warren helped establish Harvard's secretive Spunkers, which studied human anatomy. But medical schools had a problem. They needed bodies, and some of those bodies were stolen from graves. The people who supplied them had a remarkable name: resurrectionists. Warren would eventually experience something strangely similar himself.

**[01:00]** After he was killed at Bunker Hill, the British buried him in a common grave. Nine months later, Warren was dug up, identified, and buried again. Joseph Warren had returned from the grave for the first time. And who paid for this monument to Joseph Warren at Bunker Hill? King Solomon's Lodge. King Solomon, as in Solomon's Temple in Jerusalem.

That Jewish temple was destroyed on the ninth day of the 11th **[01:30]** month, 9/11. And centuries later, the Second Temple met the same fate on the same date. I was already curious about Harvard's Memorial Hall, so I climbed the Bunker Hill Monument for a better look. What I saw shocked me. Memorial Hall appeared protected by a massive barricade straight out of the 1700s.

So, I went back to Harvard for a closer look. From street level, the barricade disappeared as Gund Hall reflected the blue **[02:00]** sky downward. Gund Hall is home to the Harvard Graduate School of Design. My attention returned to Memorial Hall, where I confirmed those strange pipes on the roof. Nine of them point toward the exact level of this little sheet metal window.

I later counted Gund Hall's support columns: 11. Was I looking at an all-seeing eye? I wasn't convinced until I followed its line of sight straight down Cambridge Street. The endpoint took my breath away. Logan Airport, **[02:30]** Terminal B. Not long afterward, I visited Ground Zero and found another eye, the Oculus.

Oculus means eye, light, line of sight, and eye. And now three structures were staring back at me. The Bunker Hill Obelisk, Gund Hall, Memorial Hall. Their alignment made me wonder whether I was looking at pieces of a much larger plan, a plan connecting the construction, the destruction, and the **[03:00]** reconstruction of Ground Zero.

And that brings us back to the man beneath the obelisk, Dr. Joseph Warren, and his resurrection. Warren had already been dug from his grave once, but all these connections gave me a much stranger thought. Were they trying to resurrect him again? Was Joseph Warren's so-called dark energy supposed to travel from his monument, through Gund Hall, through Memorial Hall's apparent all-seeing eye, and onward toward Logan, **[03:30]** toward the airport from which two of the 9/11 planes departed?

All this stagecraft was making me wonder whether all the world is indeed a stage. And was this architectural stagecraft suggesting no ordinary resurrection? Was someone staging the resurrection of the resurrectionist for the second time? And then there's Warren's fake Indian claim. Because September 11th and the British have another strange **[04:00]** connection to fake Indians.

September 11th, 1782, the final battle of the Revolutionary War. Fake Indians two years earlier. September 11th, 1780, the Sugar Loaf Massacre. More fake Indians loyal to the Crown? Did they see the white man as their enemy? And finally, her name, Elizabeth Warren. Joseph Warren's wife was also Elizabeth Warren, and if Joseph Warren was being **[04:30]** called back from the grave, what better name to call him with?

**Elizabeth Warren. Is there more about Elizabeth Warren we never knew? Five questions for Elizabeth Warren.**

- Senator Warren, where were you on September 11th, 2001? Who were you with, and what were you doing?
- On or before September 11th, 2001, did you know that Major General Dr. Joseph **[05:00]** Warren's wife was named Elizabeth Warren?
- On or before September 11th, 2001, did you ever discuss Major General Dr. Joseph Warren, Bunker Hill, or his historical significance with anyone at Harvard?
- Have you ever participated in any ceremony, ritual, or gathering concerning Major General Dr. Joseph Warren?
- And finally, Hasan Piker said America deserved 9/11. Do you **[05:30]** unequivocally condemn that statement?
